Since its establishment in 1992, Coulisse has created inspiring window coverings based on the vision that window coverings are not mere functional products. They are an expression of style, taste and individuality, that contributes to safety, well-being and convenience in home or office. With a seamless concept of fast-forward collections, aesthetic systems and automation, Coulisse offers unrivalled possibilities to create the perfect window covering for any space.

THE PERFECT MATCH

For the most part, the look of a roller blind is defined by the fabric. By selecting hardware in a color to match a perfect total look is created that lifts the look of the entire blind. Our Absolute Roller 2.0 system is available in different designs, materials and metallic colors. Make your match!

8

For creating our collections, we are inspired by art, nature, fashion,

architecture and design from all over the world. As a result, our collection

offers endless stylish possibilities for any desired style or ambiance.

A precious treasure we keep at the Coulisse headquarters are a range

of ancient Italian textile books which originate from the textile region of

Como in Italy. The books are a timeless source of inspiration to us.

design 9

Our collections are inspired by fashion, art and nature. To underline our approach, Coulisse asked young and upcoming fashion photographer Jasper Abels (1987) to create his interpretation of our new collections and innovations for 2018. Jasper Abels works for internationally renowned fashion magazines, brands and labels as well as for world-famous museums, and combines nature, surrealism and fashion in his work. Like Coulisse, Jasper Abels resides in the eastern part of the Netherlands, where he has his studio in a farm in the green countryside.

For creating the campaign for R+T, Jasper Abels worked together with famous fashion-stylist Maarten Spruyt, who also works for photographers like Mario Testino and Carli Hermes. The result is a series of inspiring portraits in which fashion and our innovations come together based on photography and collage techniques.

CRAFT

This world, in which we strive for perfection and superiority, makes us long for authenticity and imperfection to make us feel connected to the real world. Leave behind the seemingly perfect world and let yourself escape to a balanced world filled with the perfect imperfections of nature. A world created through craft, natural textures and authentic prints. Being surrounded by earthy colors and natural materials makes us feel comfortable and part of a meaningful world that is powerful, beautiful and inspiring, just as it is.

With their natural designs, structures and colors, the roller blind fabrics in the Craft collection create a feeling of elegance and warmth in the interior.

CRAFTED COUTURE

The passion and care for handcrafts is expressed in roller blind collection Craft which is a dialogue between antiqued and luxury materials. The fabrics have an authentic atmosphere and bring us back to the nature of things. The botanic patterns are inspired by nature and printed on high-quality fabric. The plain linen-type fabrics as well as textured

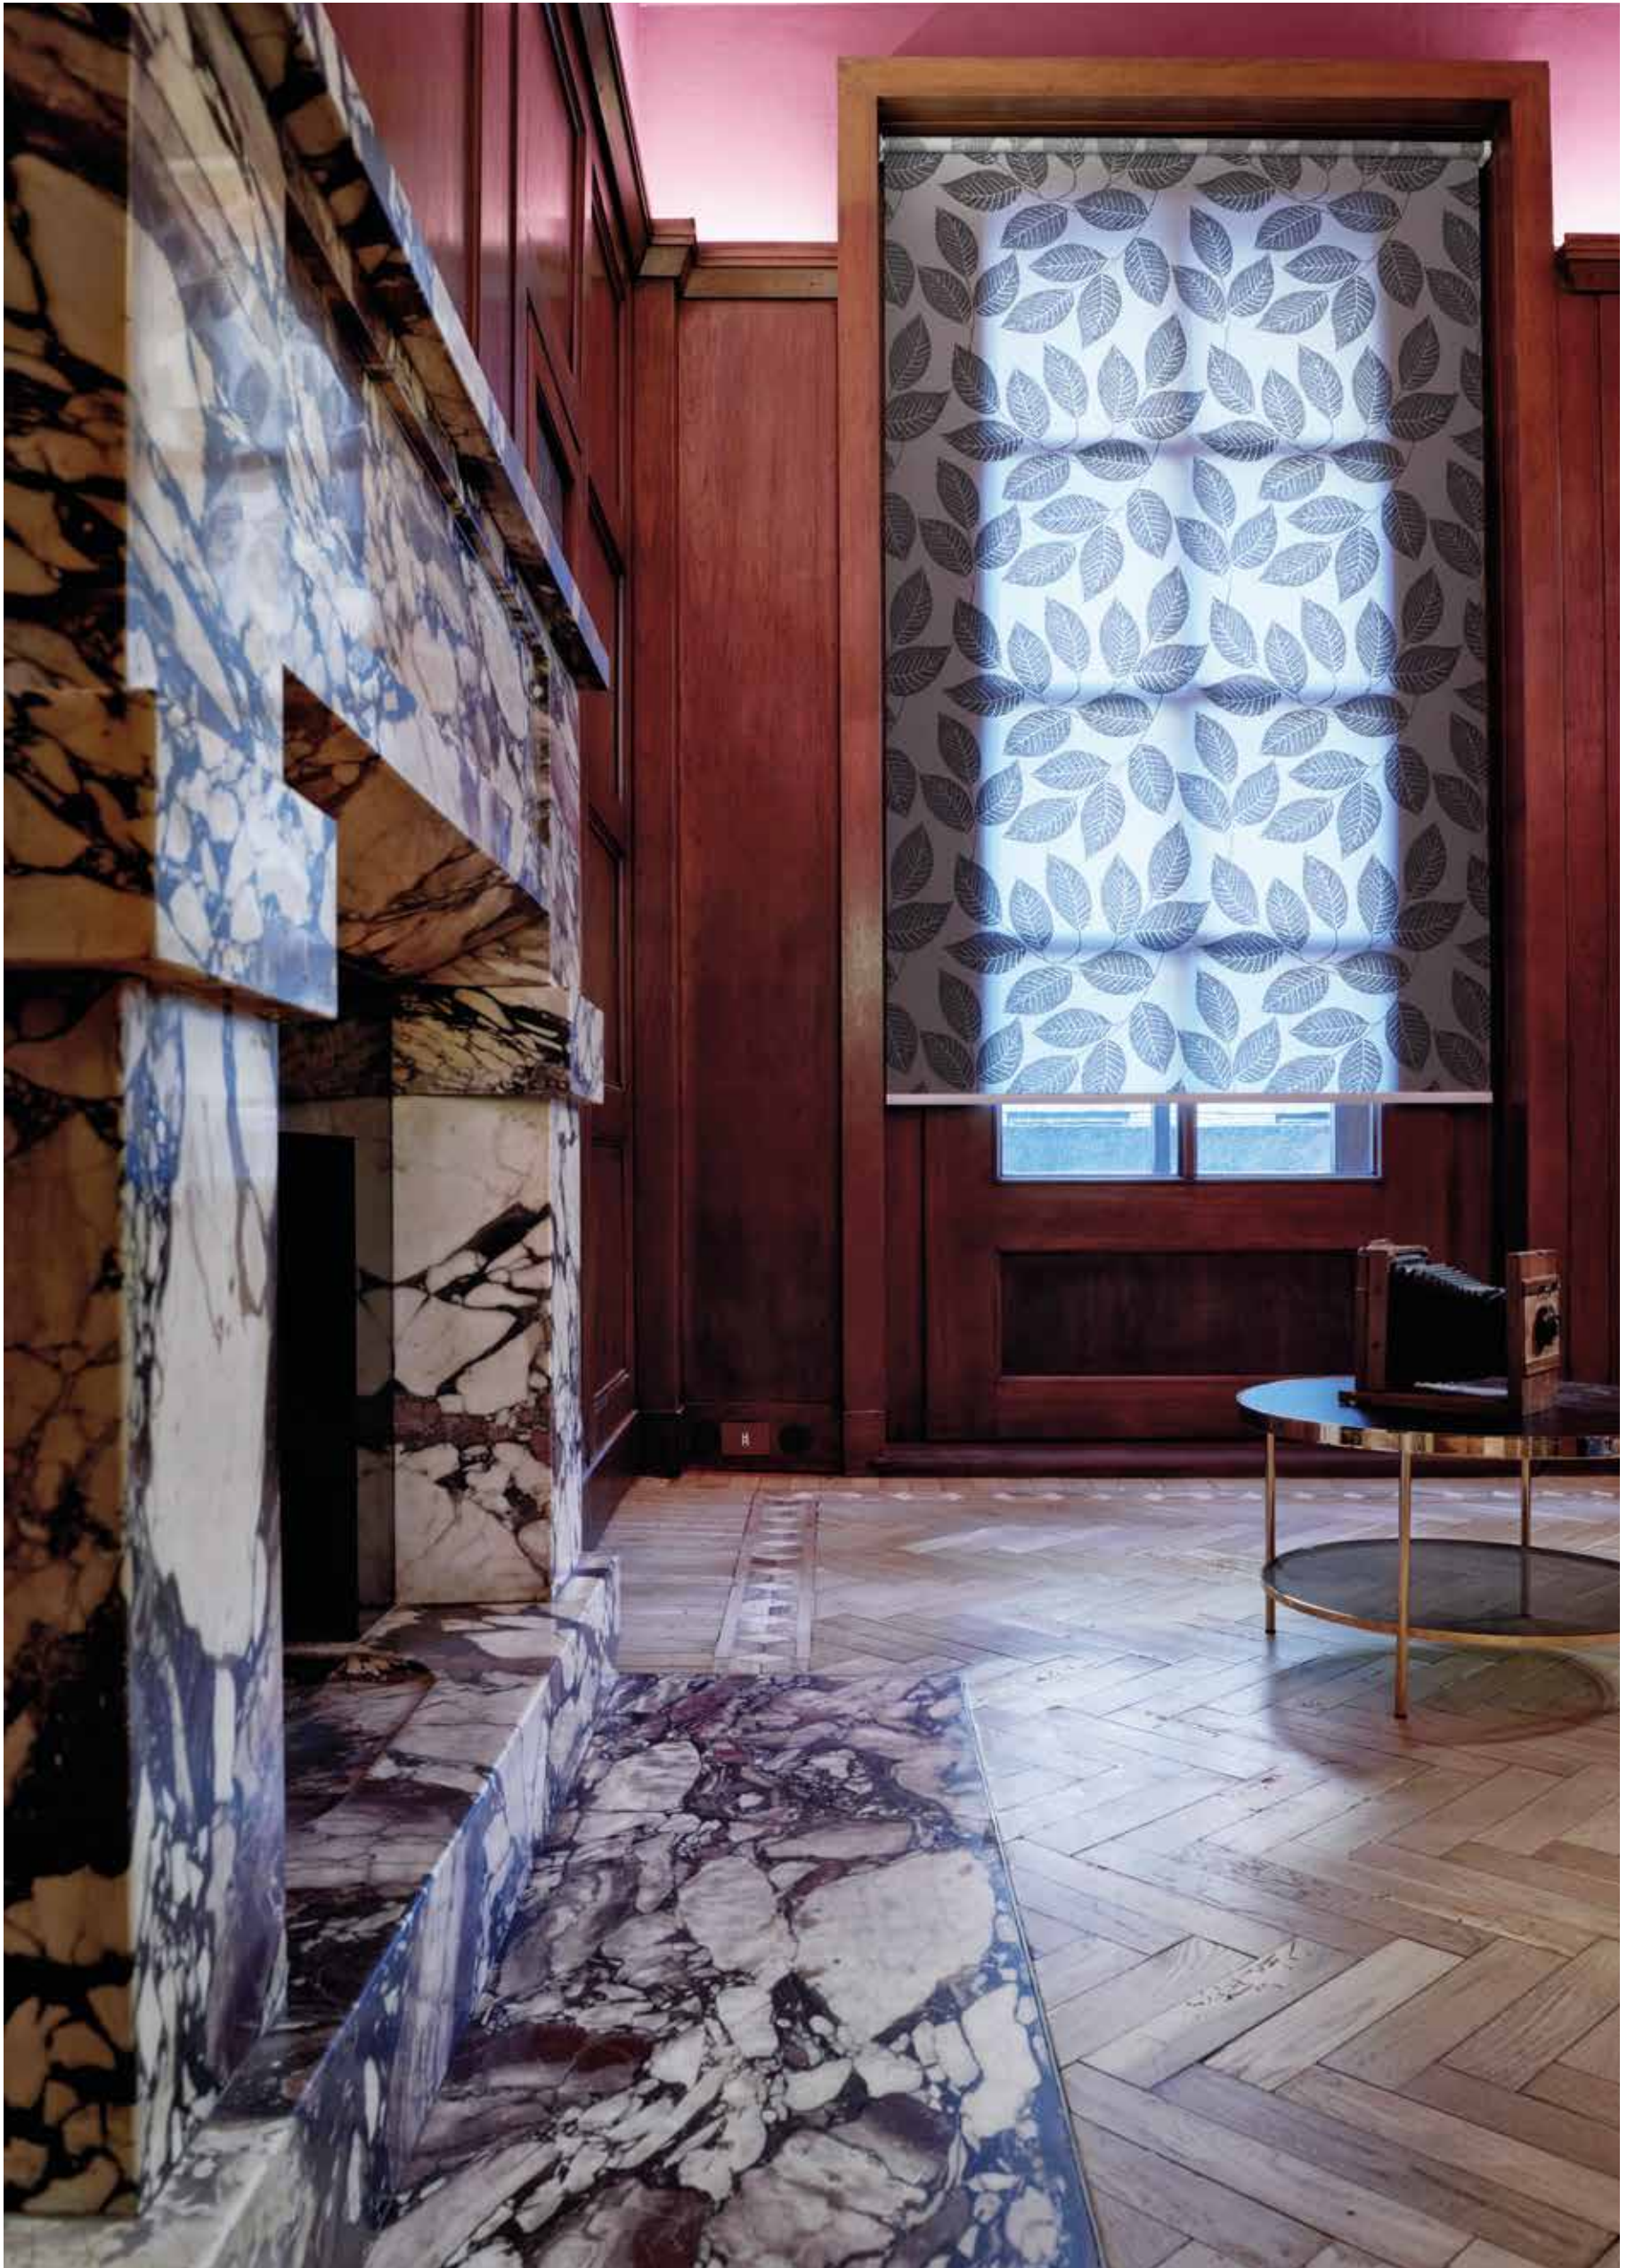

paper fabrics create a sense of purity that brings an authentic feel and warm elegance to the interior. The fabrics are worked out in timeless warm color tones that vary from clean white and elegant taupe to deep brown. The natural designs, textures and colors make the fabrics in this collection perfect for classic as well as modern interiors.

HAND-MADE

This Craft roller blind fabric has an authentic print inspired by nature worked out in a timeless beige color tone. The print has a hand-painted feel to it and almost seems to have been stamped onto the fabric. Its pure look is underlined by the natural linen-look fabric it is printed on.

NATURAL CONTRAST

A modern touch of nature as an enrichment for the interior. This graphic leaf-pattern is worked out in powerful black and white. The contrast gives the natural print a modern look, while the cotton-like texture of the fabric softens its graphic character.

INFINITELY CHIC

The stylish pattern of this roller blind fabric is inspired by nature and lights up in front of the window. The fabric is dark yet thanks to its transparency has a light feel to it. It creates a chic and intimate atmosphere in the interior. The anthracite bottom-bar forms the finishing touch.

DECADENCE

Let the outside world be modest and grey, while you step out of your comfort zone celebrating the diversity and contrasts that lead to creativity. The Decadence collection expresses a new way of thinking rather than just a new look. It inspires us to explore the stimulating world of art, design and fashion and to make daring choices. Surround yourself with rich colors and bold color combinations and plunge into the unknown.

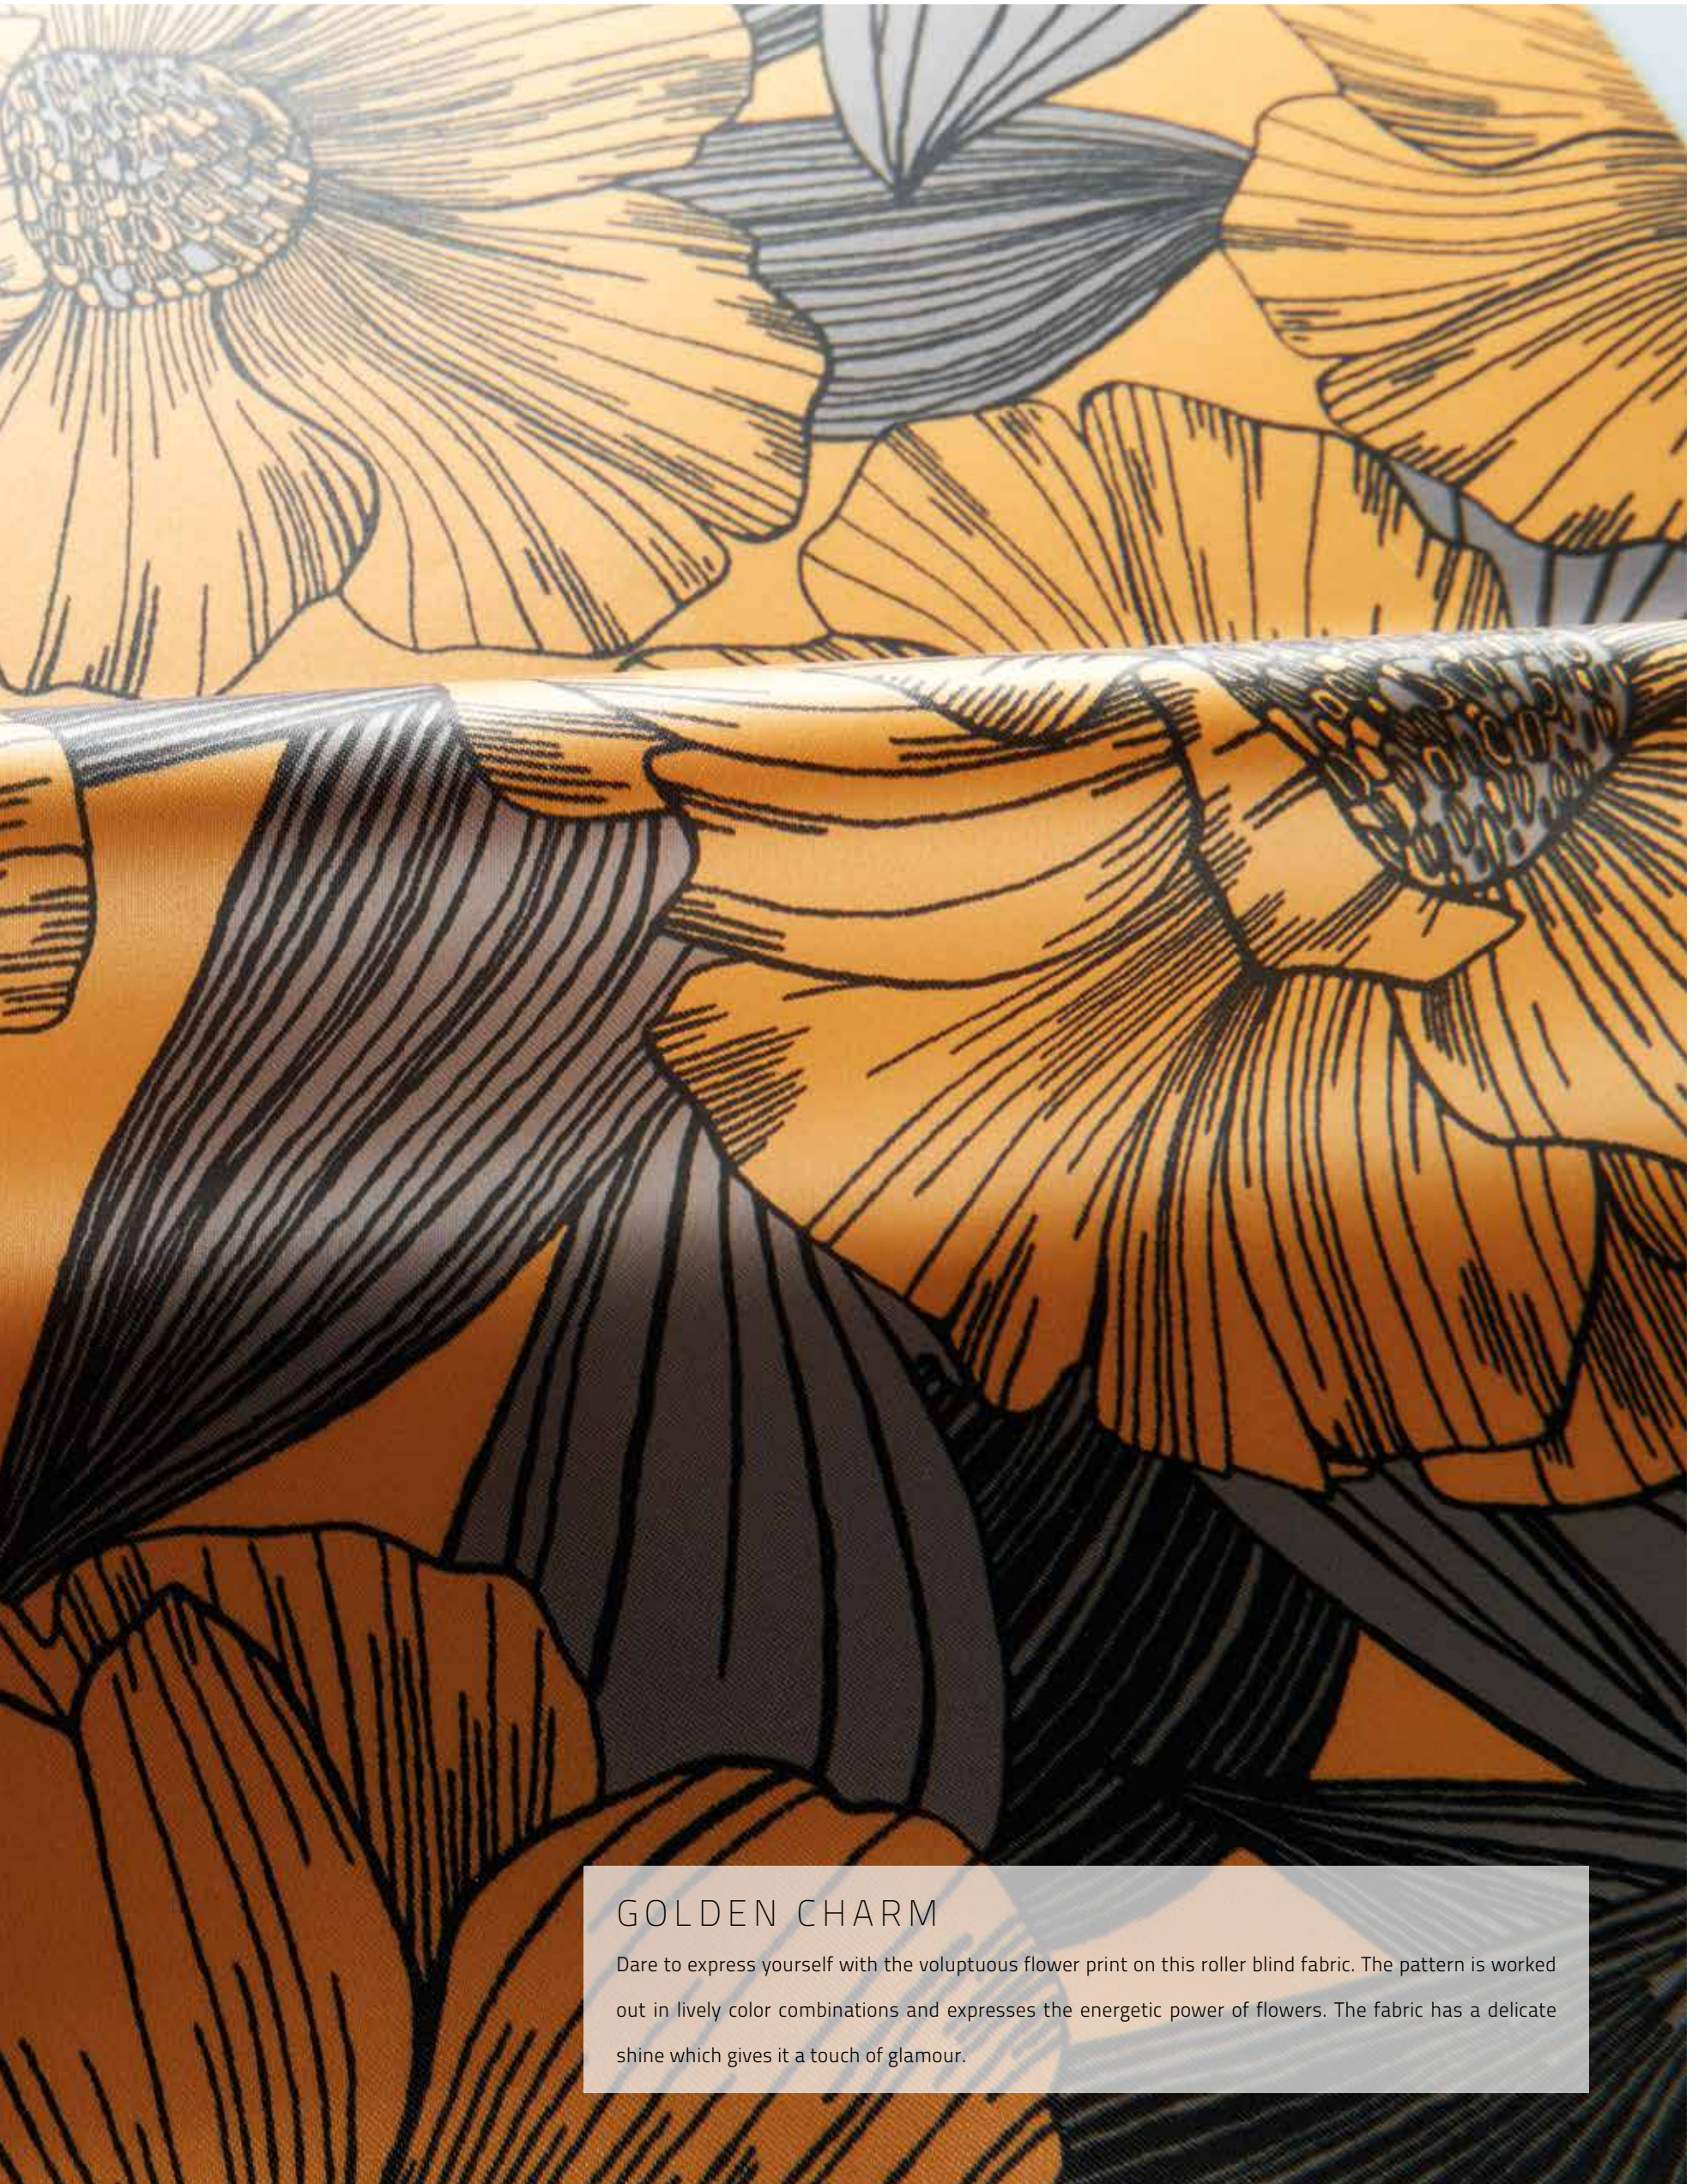

The decadent roller blind fabrics in this collection are inspired by art, design and fashion. They create a bold feeling of luxury and exclusiveness in the interior.

ULTIMATE LUXURY

Create a place of charming decadence with the luxurious roller blind fabrics in this sumptuous collection inspired by art, design and fashion. The collection offers rich jacquard-woven fabrics with large as well subtle floral patterns, elegant prints and exquisite plain fabrics. Rich color tones and color

combinations are central to this exclusive collection. The colors range from classic orange brown to dramatic black and red, combined with blue and green tones for a fresher look. This modern touch makes these chic fabrics perfect for today's lively interior where they create color and a sense of wealth.

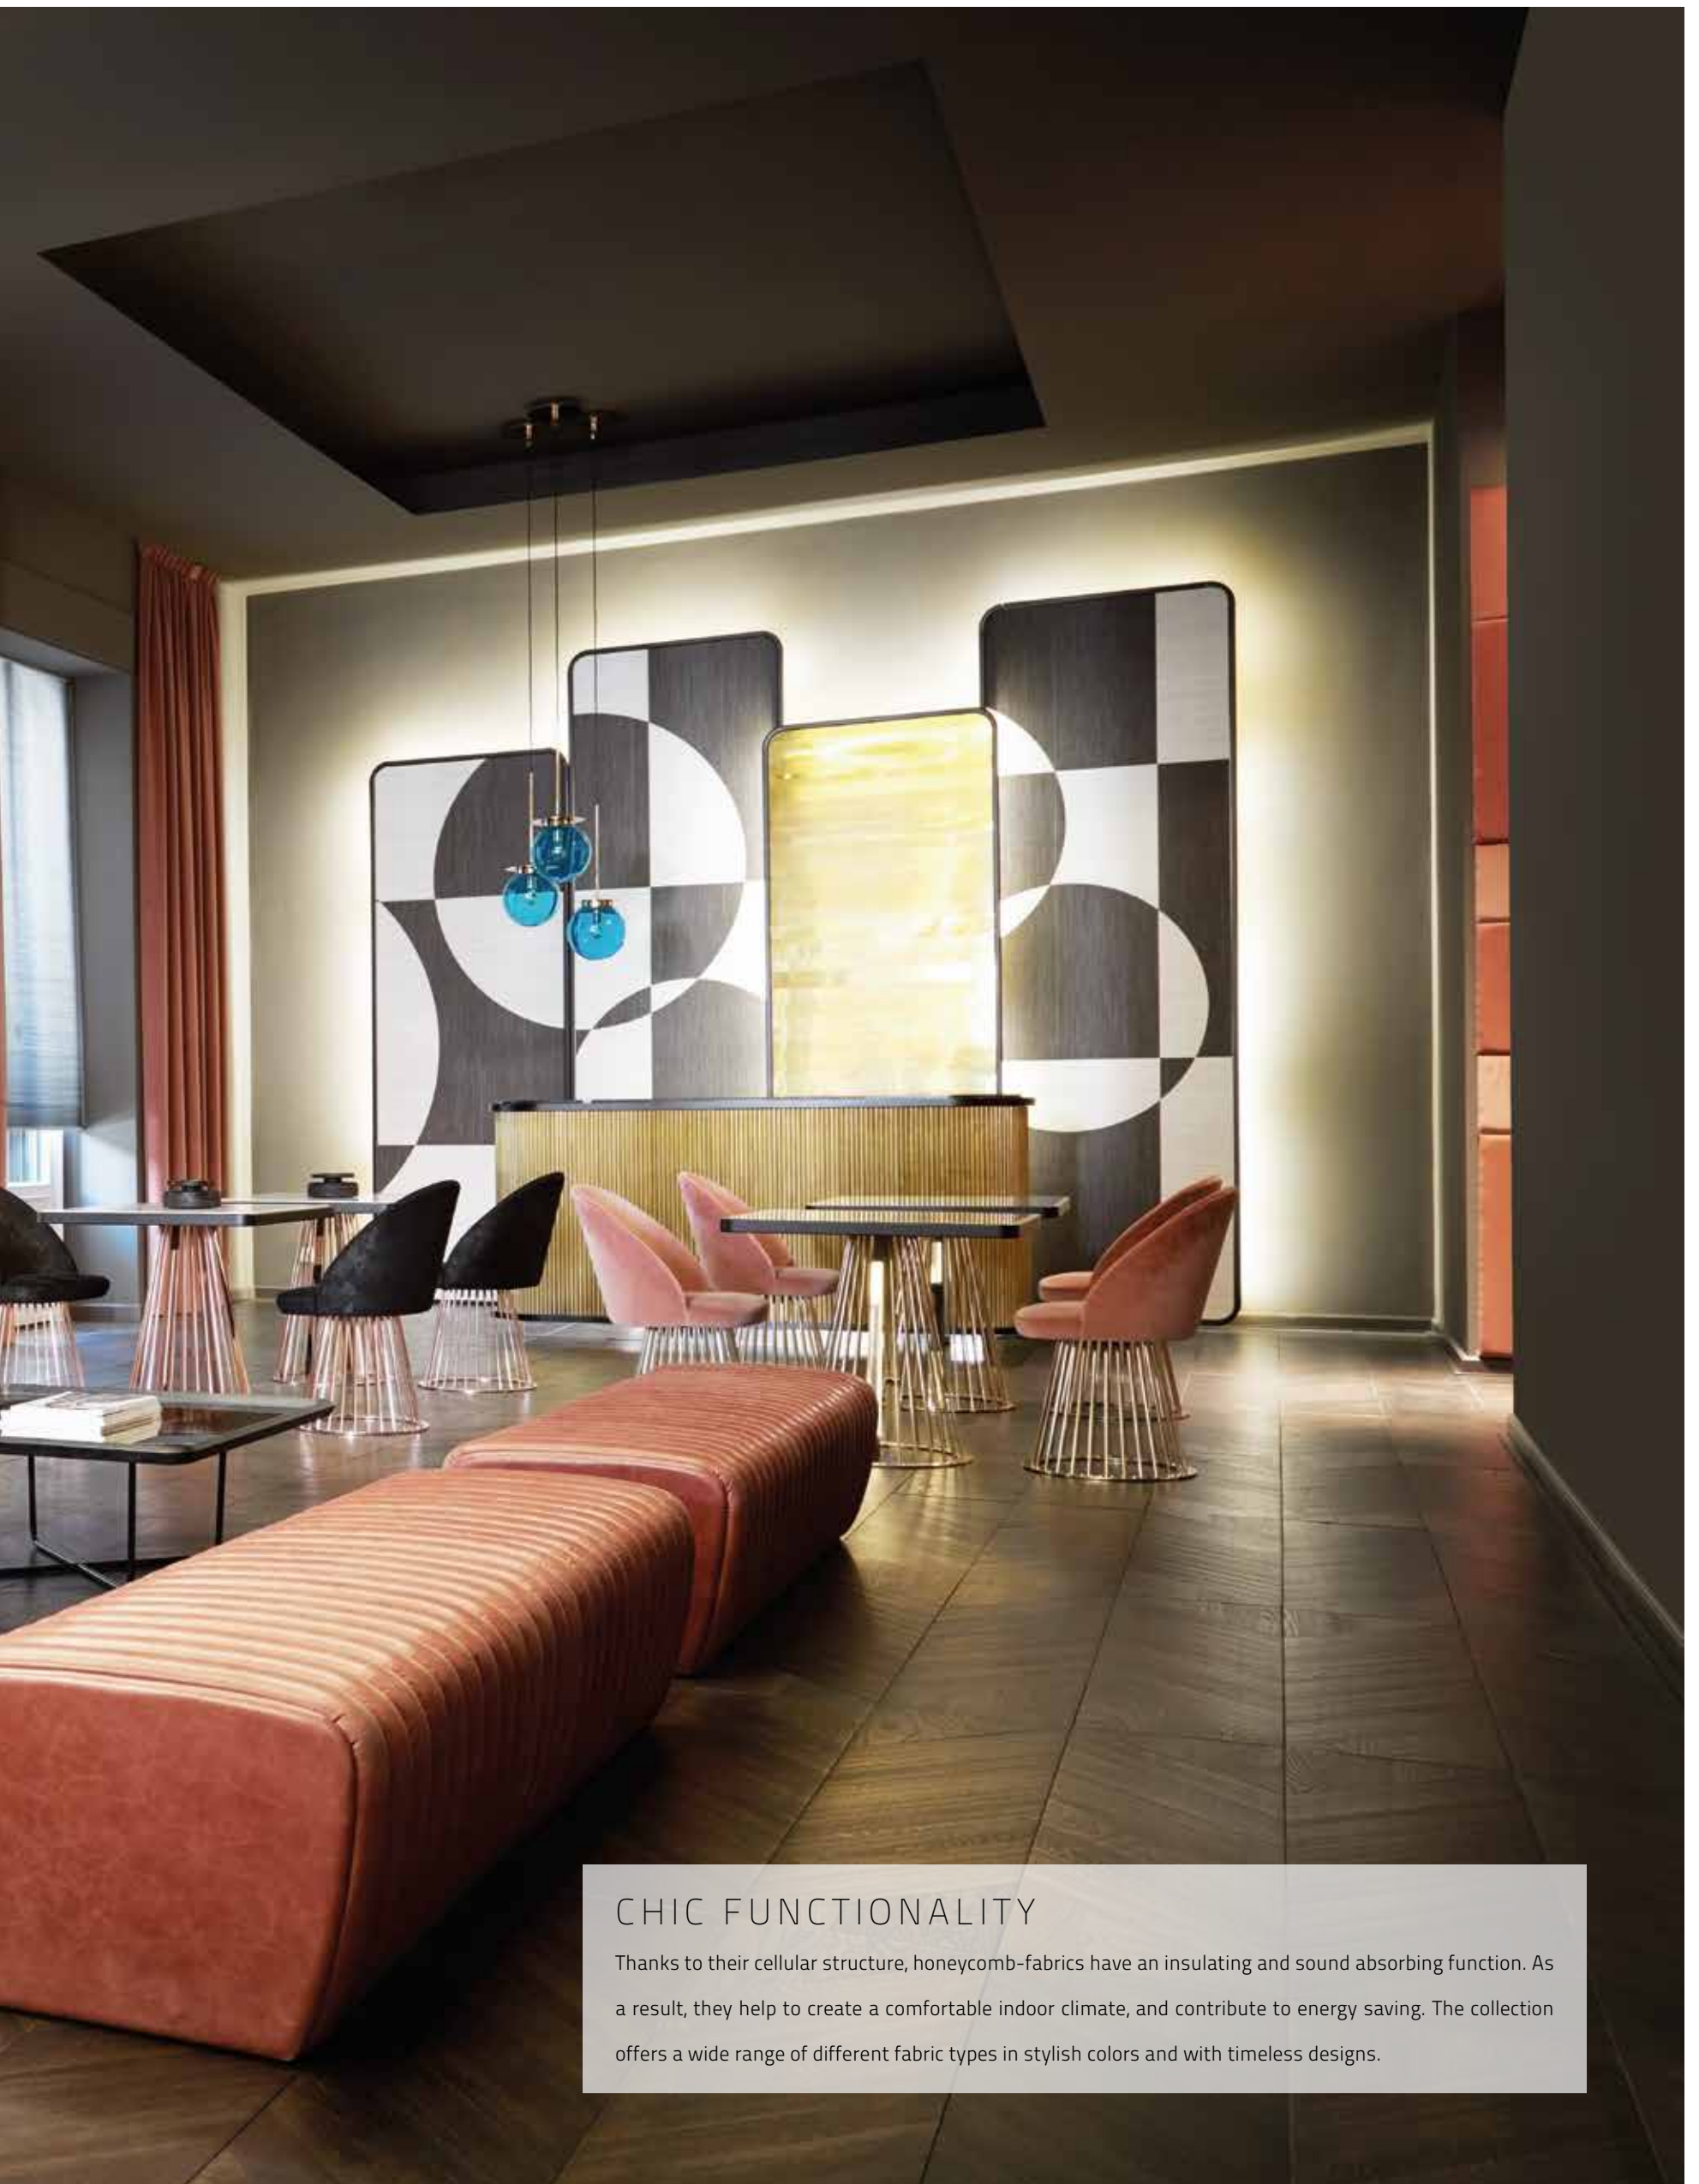

GOLDEN CHARM

Dare to express yourself with the voluptuous flower print on this roller blind fabric. The pattern is worked out in lively color combinations and expresses the energetic power of flowers. The fabric has a delicate shine which gives it a touch of glamour.

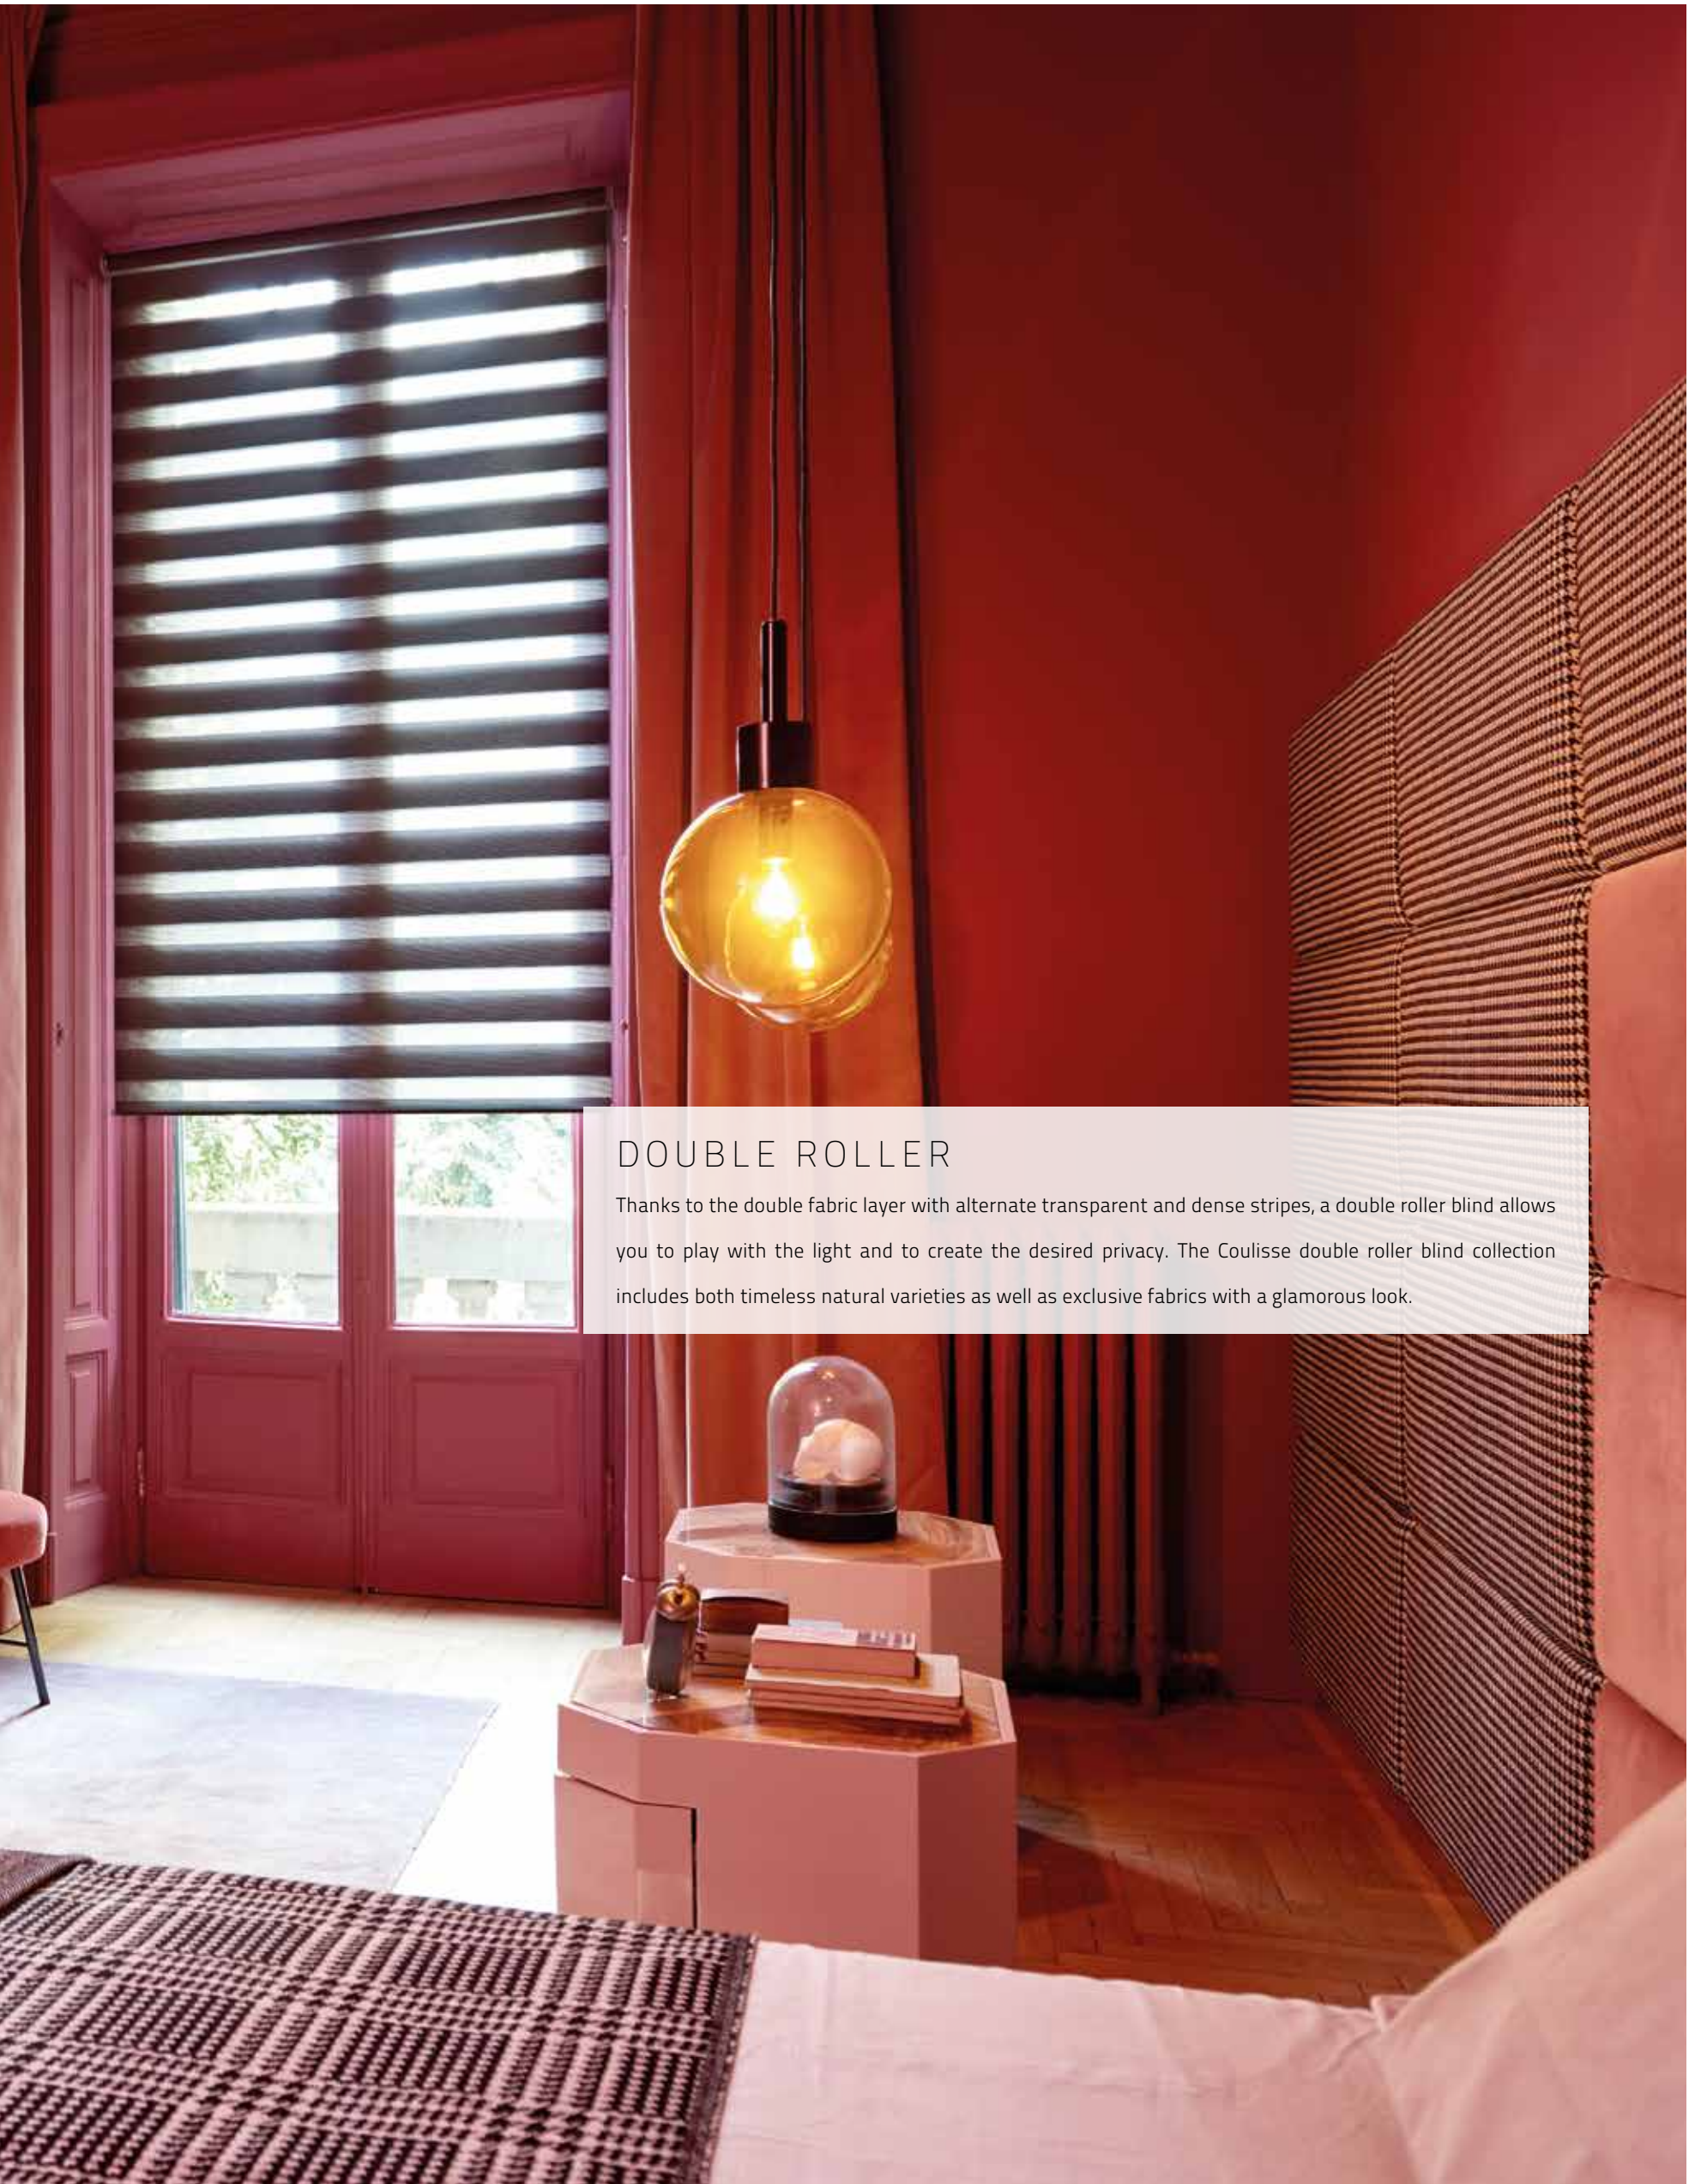

CHIC FUNCTIONALITY

Thanks to their cellular structure, honeycomb-fabrics have an insulating and sound absorbing function. As a result, they help to create a comfortable indoor climate, and contribute to energy saving. The collection offers a wide range of different fabric types in stylish colors and with timeless designs.

DOUBLE ROLLER

Thanks to the double fabric layer with alternate transparent and dense stripes, a double roller blind allows you to play with the light and to create the desired privacy. The Coulisse double roller blind collection includes both timeless natural varieties as well as exclusive fabrics with a glamorous look.

TIMELESS VENETIAN

XL Venetian blinds are a timeless choice for any interior. They offer perfect light filtering and privacy and are available in a wide range of stylish materials, including leather, wood and aluminum. Thanks to the 50 mm width of the slats, they have a powerful look.

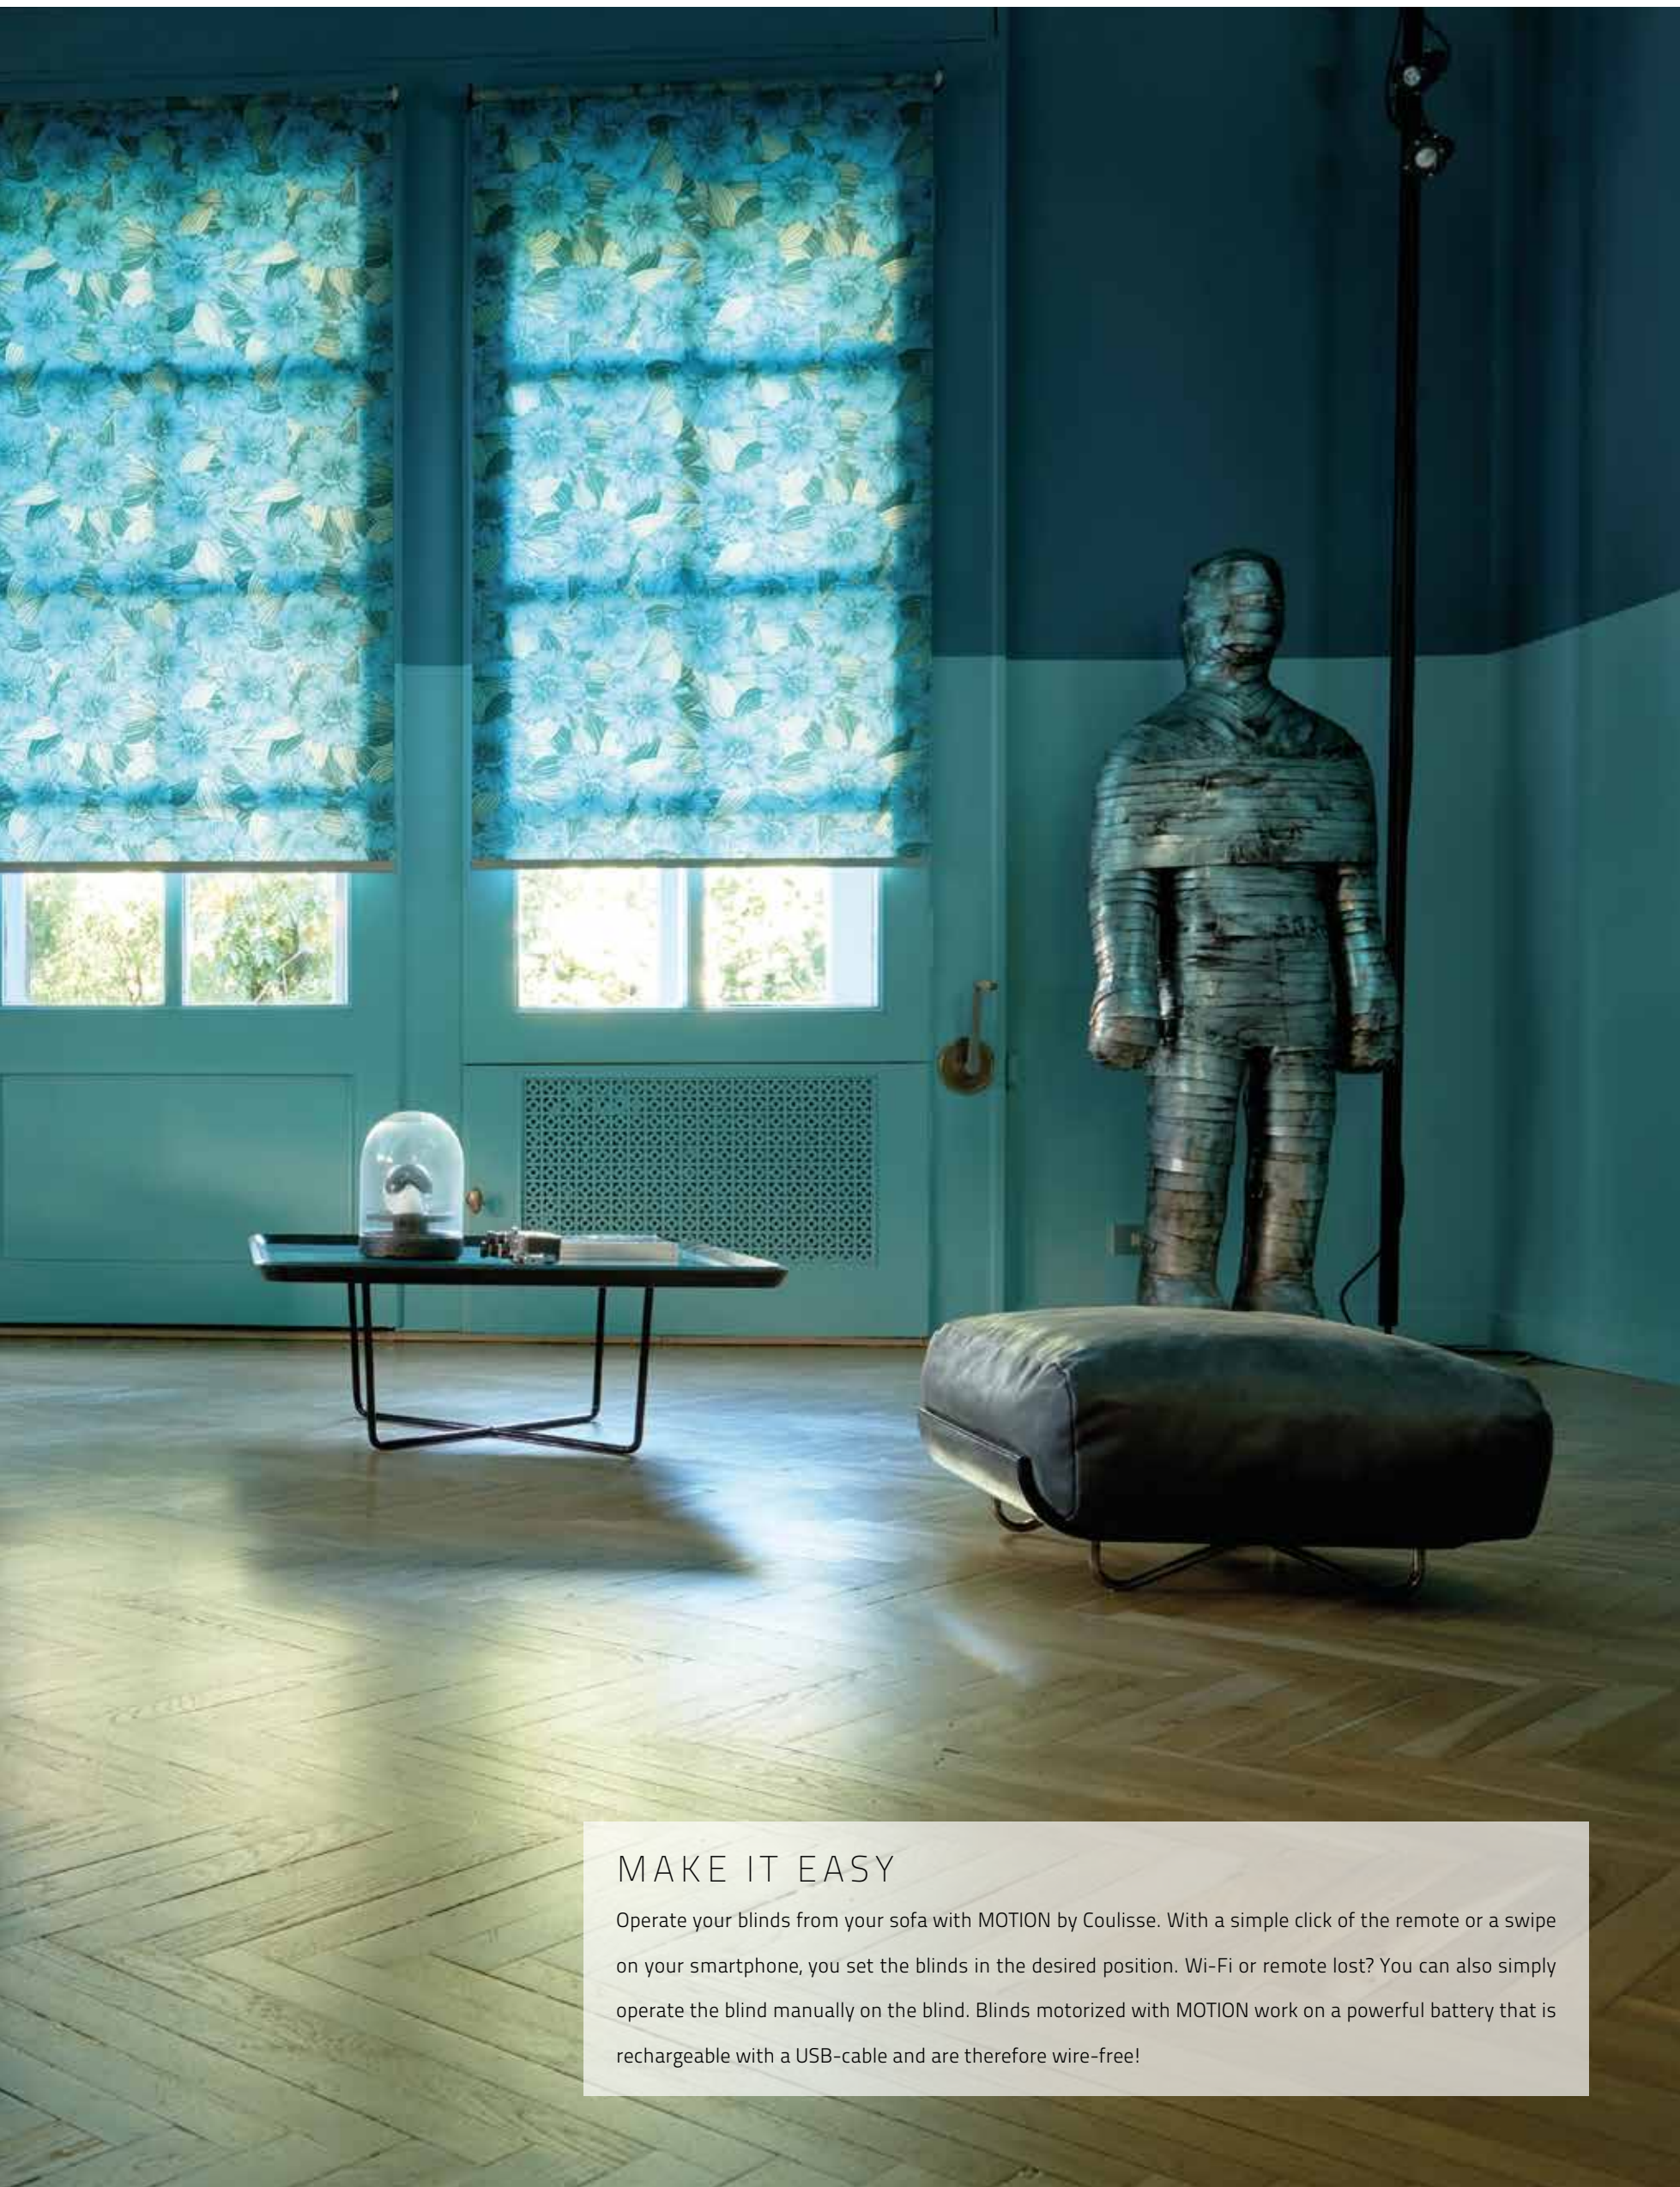

TO EVERY DETAIL

Accessories are the finishing touch for any blind. The Coulisse collection of ladder tapes for 50 mm Venetian blinds offers a wide palette of stylish colors, designed to match the extensive Venetian collection of Coulisse, and even jacquard-woven varieties with exceptional patterns.

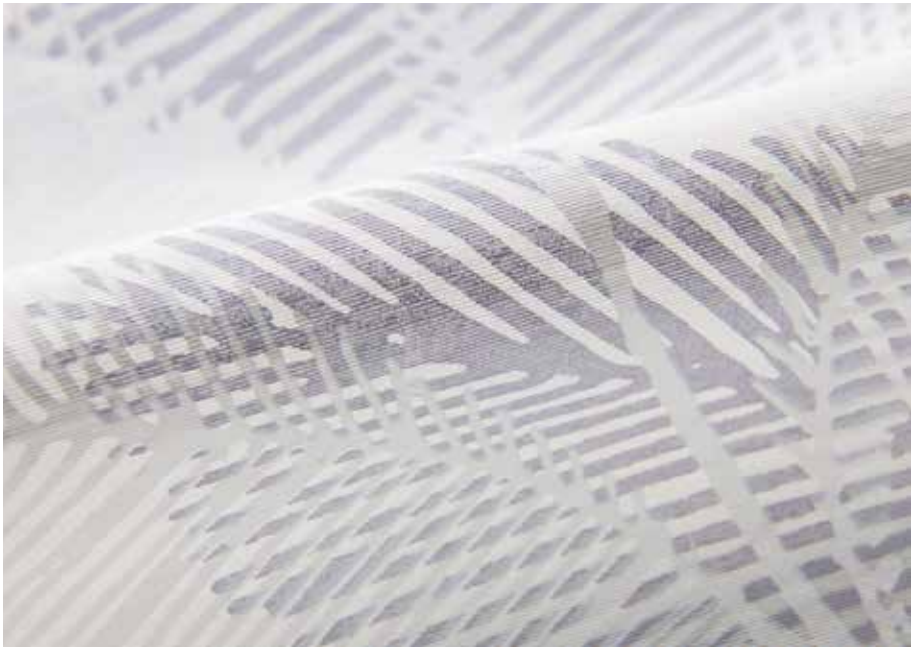

MAKE IT EASY

Operate your blinds from your sofa with MOTION by Coulisse. With a simple click of the remote or a swipe on your smartphone, you set the blinds in the desired position. Wi-Fi or remote lost? You can also simply operate the blind manually on the blind. Blinds motorized with MOTION work on a powerful battery that is rechargeable with a USB-cable and are therefore wire-free!

SERENITY

The wish to be pampered and cuddled brings dreams to the surface that soften the hardness of today's transparent in-your-face world. Leave behind this busy world and let yourself escape to a soft world of peace and serenity. A world created through light, soft colors and dreamy textures. Surround yourself with white color tones, delicate pastels and refined patterns in creating a friendly place of beauty. A place to retreat in. A place called home.

The inviting soft-colored roller blind fabrics in this collection create a feeling of softness and friendliness in the interior.

DELICATE PASTELS

Create a place of serenity with the delicate roller blind fabrics in this collection. They create a feeling of softness and friendliness in the interior. The collection offers inviting white fabrics with floral and botanic prints worked out in a variety of delicate pastels. The exclusive jacquards show floral or subtle animal textures and embody true luxury, while the plain fabrics in the range represent timeless elegance with

their elegant weaving textures and soft colors. Eye catchers in the collection are jacquard-woven fabrics in soft color tones with a water-color-look. The soft color palette used for this dreamy collection mainly includes warm whites and subtle hints of color. They allow for creating a timeless and balanced atmosphere. The delicate pastel color tones in the collection offer an inviting, serene look that will never go out of style.

ALL ZEN

Calm your senses and create a peaceful place of light and tranquility. The natural botanic pattern on the roller blind is in subtle neutral colors that make it light and airy. The fabric filters the light while offering a comfortable privacy.

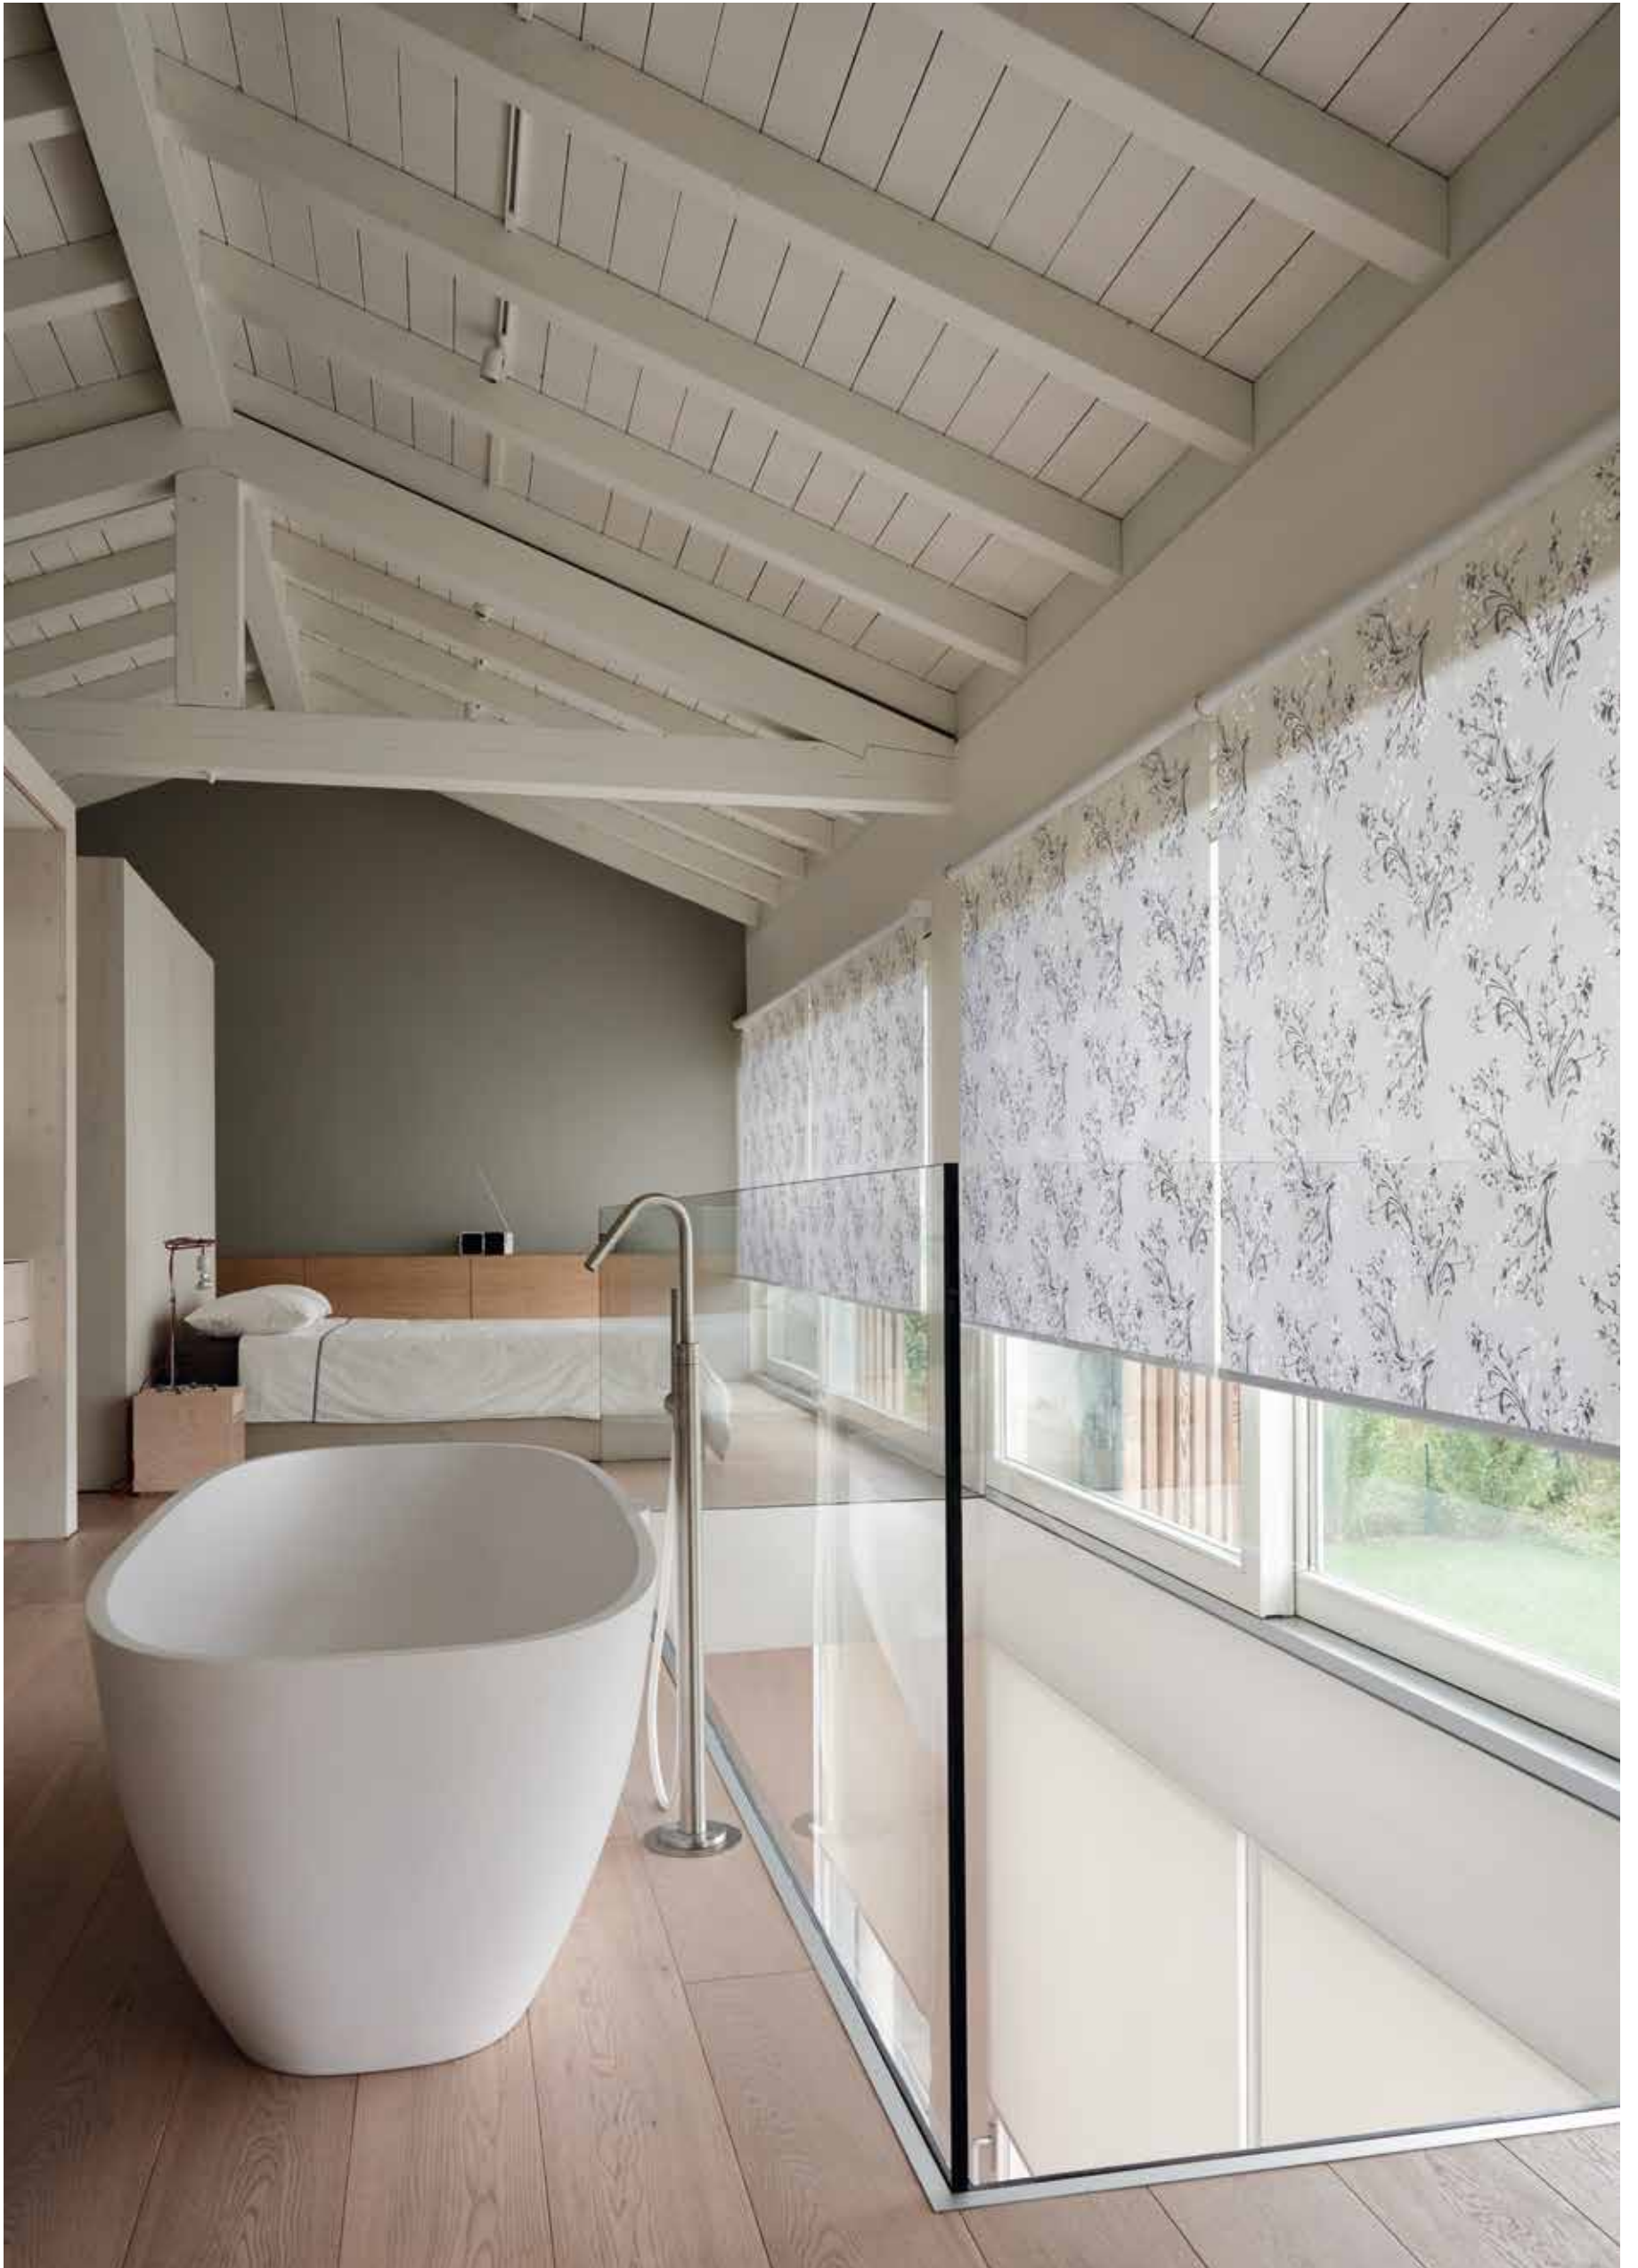

POWER COMBINATION
Absolute Roller 2.0 - Anthracite

This anthracite system is a perfect match with powerful wool-look fabric Winchester. The combination is modern and masculine yet offers body and warmth.

MEET SCREEN

Thanks to its excellent heat and natural light managing properties, screen is a beloved window covering material. In the Coulisse screen collection, the excellent functionality of screens is combined with unrivalled decorative appeal through glamorous gloss, natural prints and linen-looks.

FLORAL ELEGANCE

This jacquard-woven fabric is decorated with a water-color pattern inspired by nature. The combination of jacquard and print gives the fabric a three-dimensional effect, which makes this fabric truly exceptional.

HERBARIUM

In today's busy world, in which we are surrounded by rectangular offices and a constant flow of information, our desire to experience the silence of nature continues to increase. Escape the hard business world and surround yourself with the beauty nature has to offer. Absorb the warmth of the soft sand in the sun, follow the rippling waves in the clear ocean and feel the rounded stones. Breathe into the watercolor skies. Let the soft colors of nature transport you out of the hectic and into the state of inner peace and calmness that brings you back to your own nature.

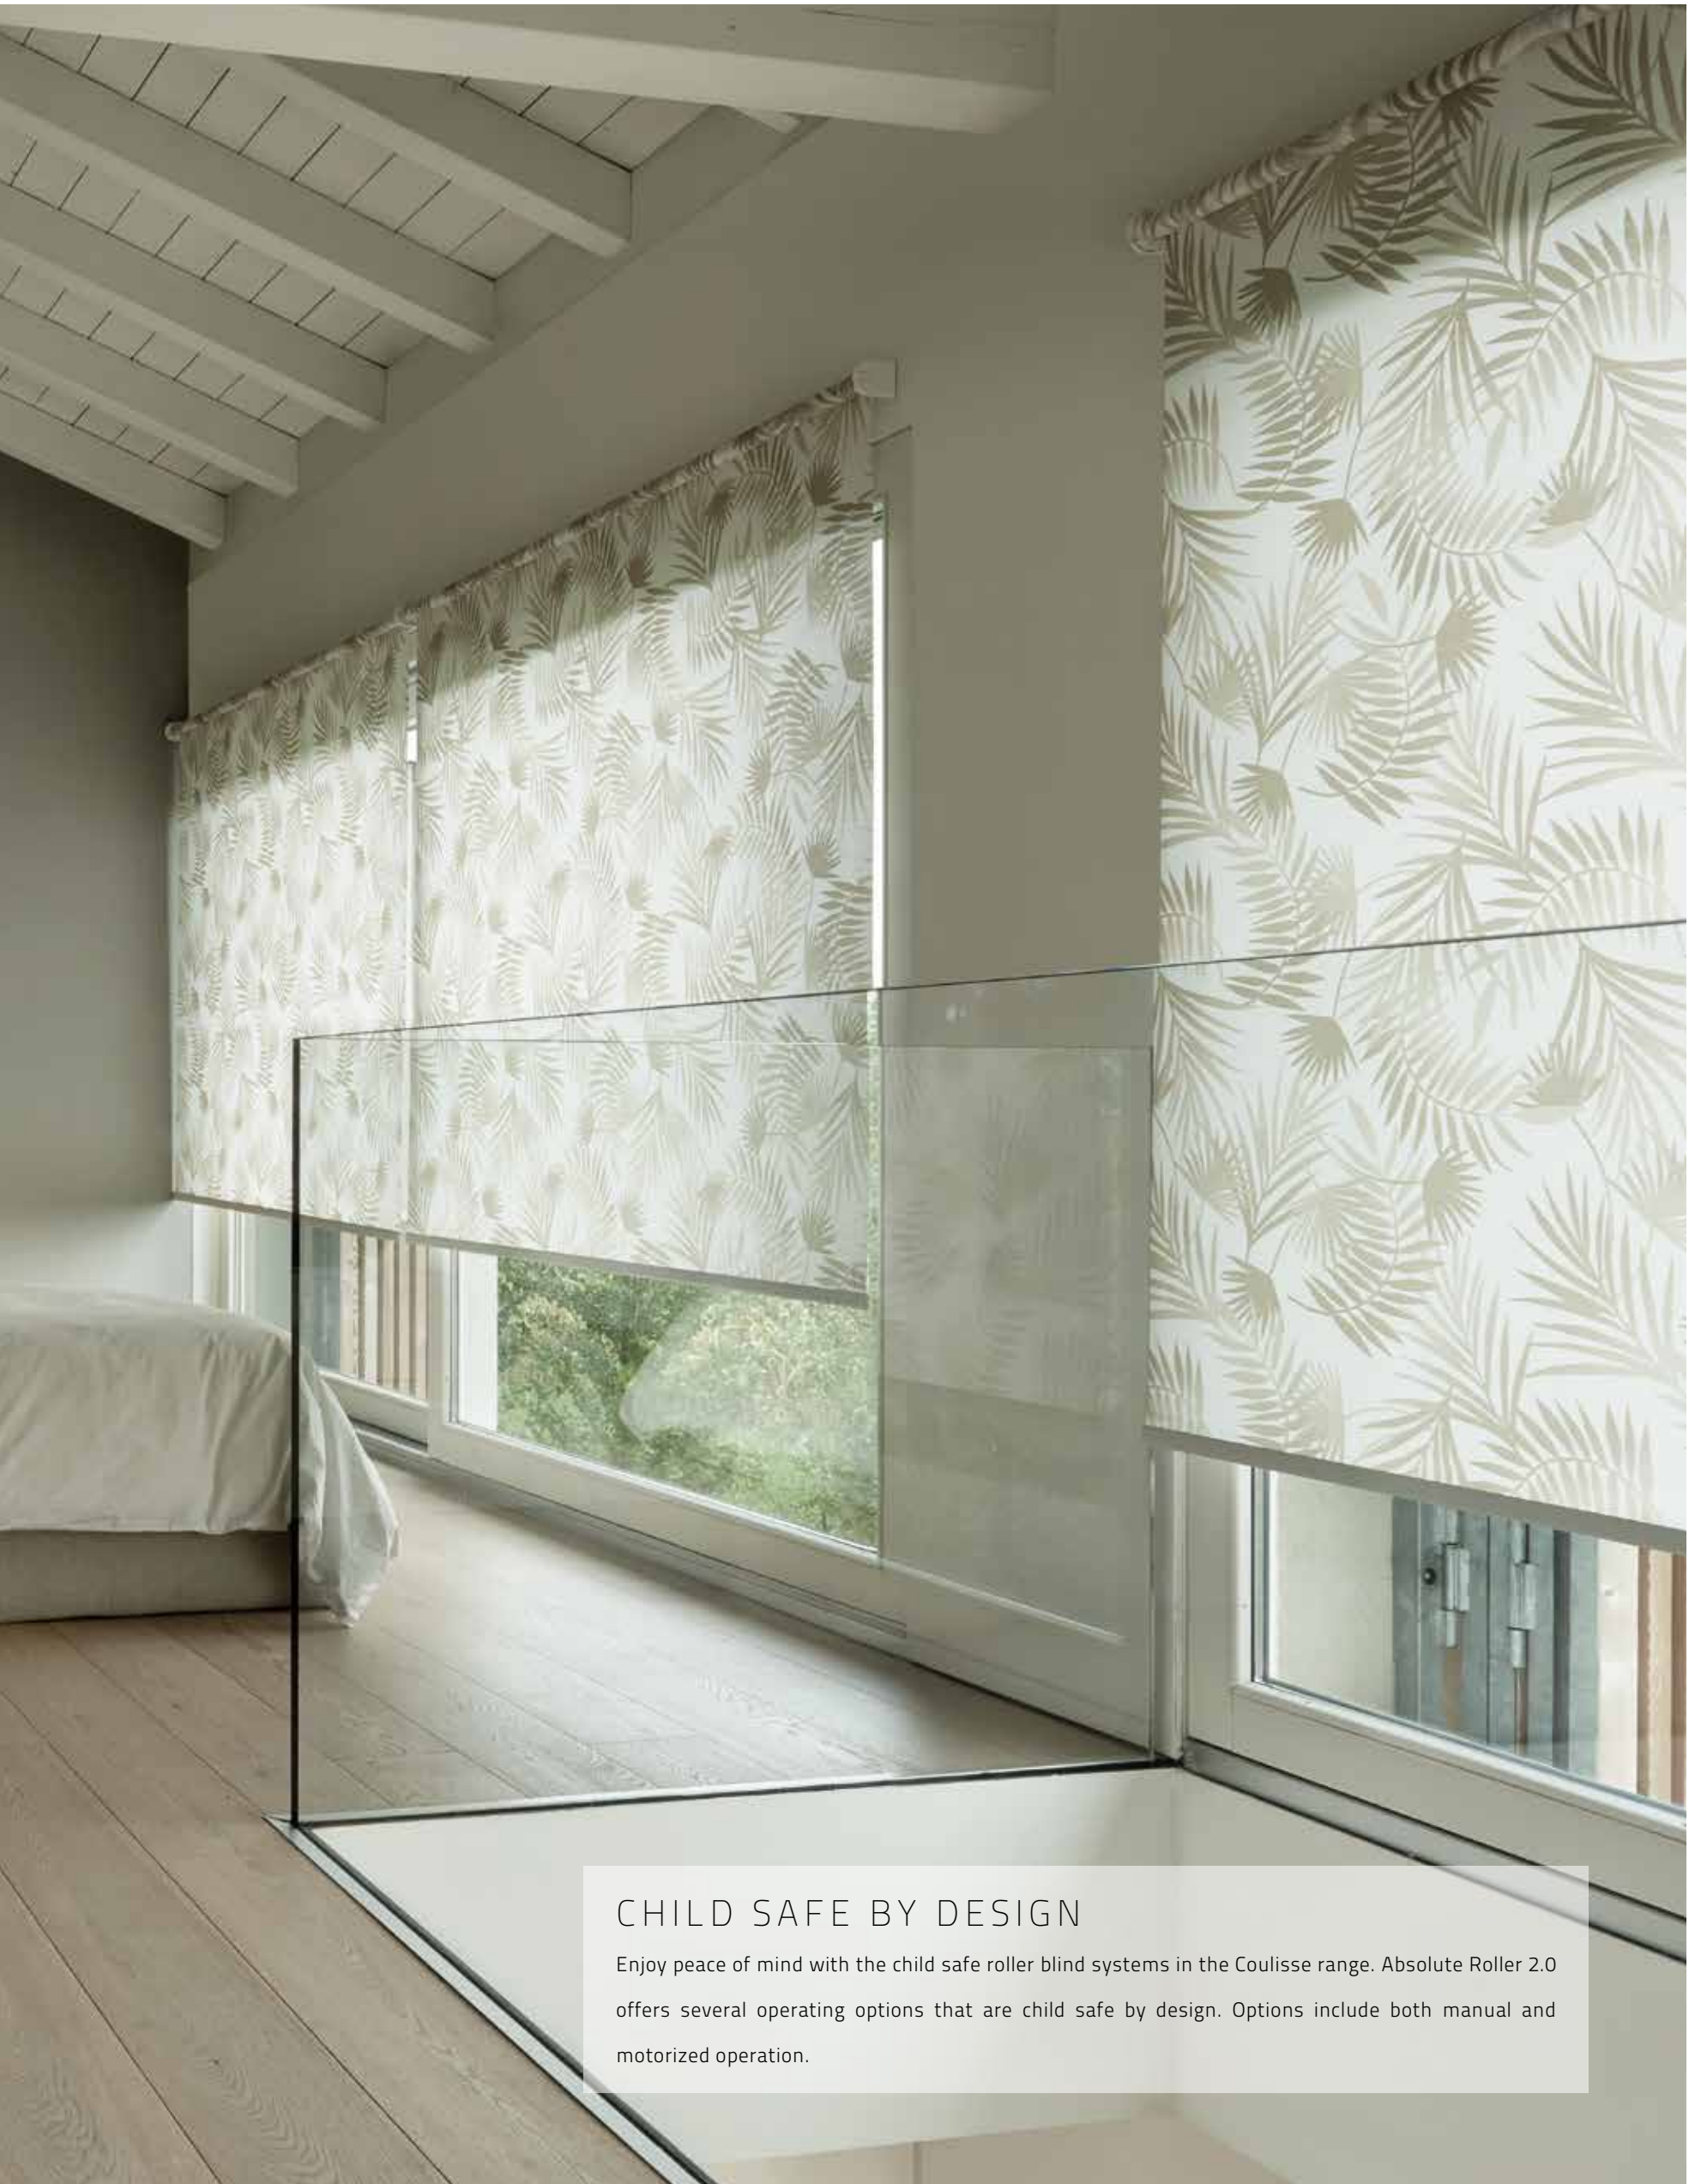

The soft color tones and natural flower designs of the roller blind fabrics in this botanic collection underline the beautiful silence of nature.

NATURAL STILLNESS

Feel surrounded by nature with the roller blind fabrics from the Herbarium collection. The fabrics bring a feeling of minimalism and peace into the interior. The collection is inspired by hand-painted designs, drawings and prints from botanic archives, and includes plain fabrics in a variety of weaving textures. From delicate fabrics with a wool or cotton-look that creates a timeless atmosphere to fabrics with a looser

yarn for a modern look and tactile feeling. The floral hand-painted designs of the printed fabrics show large leaves and subtle flowers. They are printed on plain fabrics in natural color tones that underline their natural look. Subtle hints of soft blue refer to the ocean and bring a touch of mild freshness. The pasty colors absorb sound and aggression and create balance and decorative appeal.

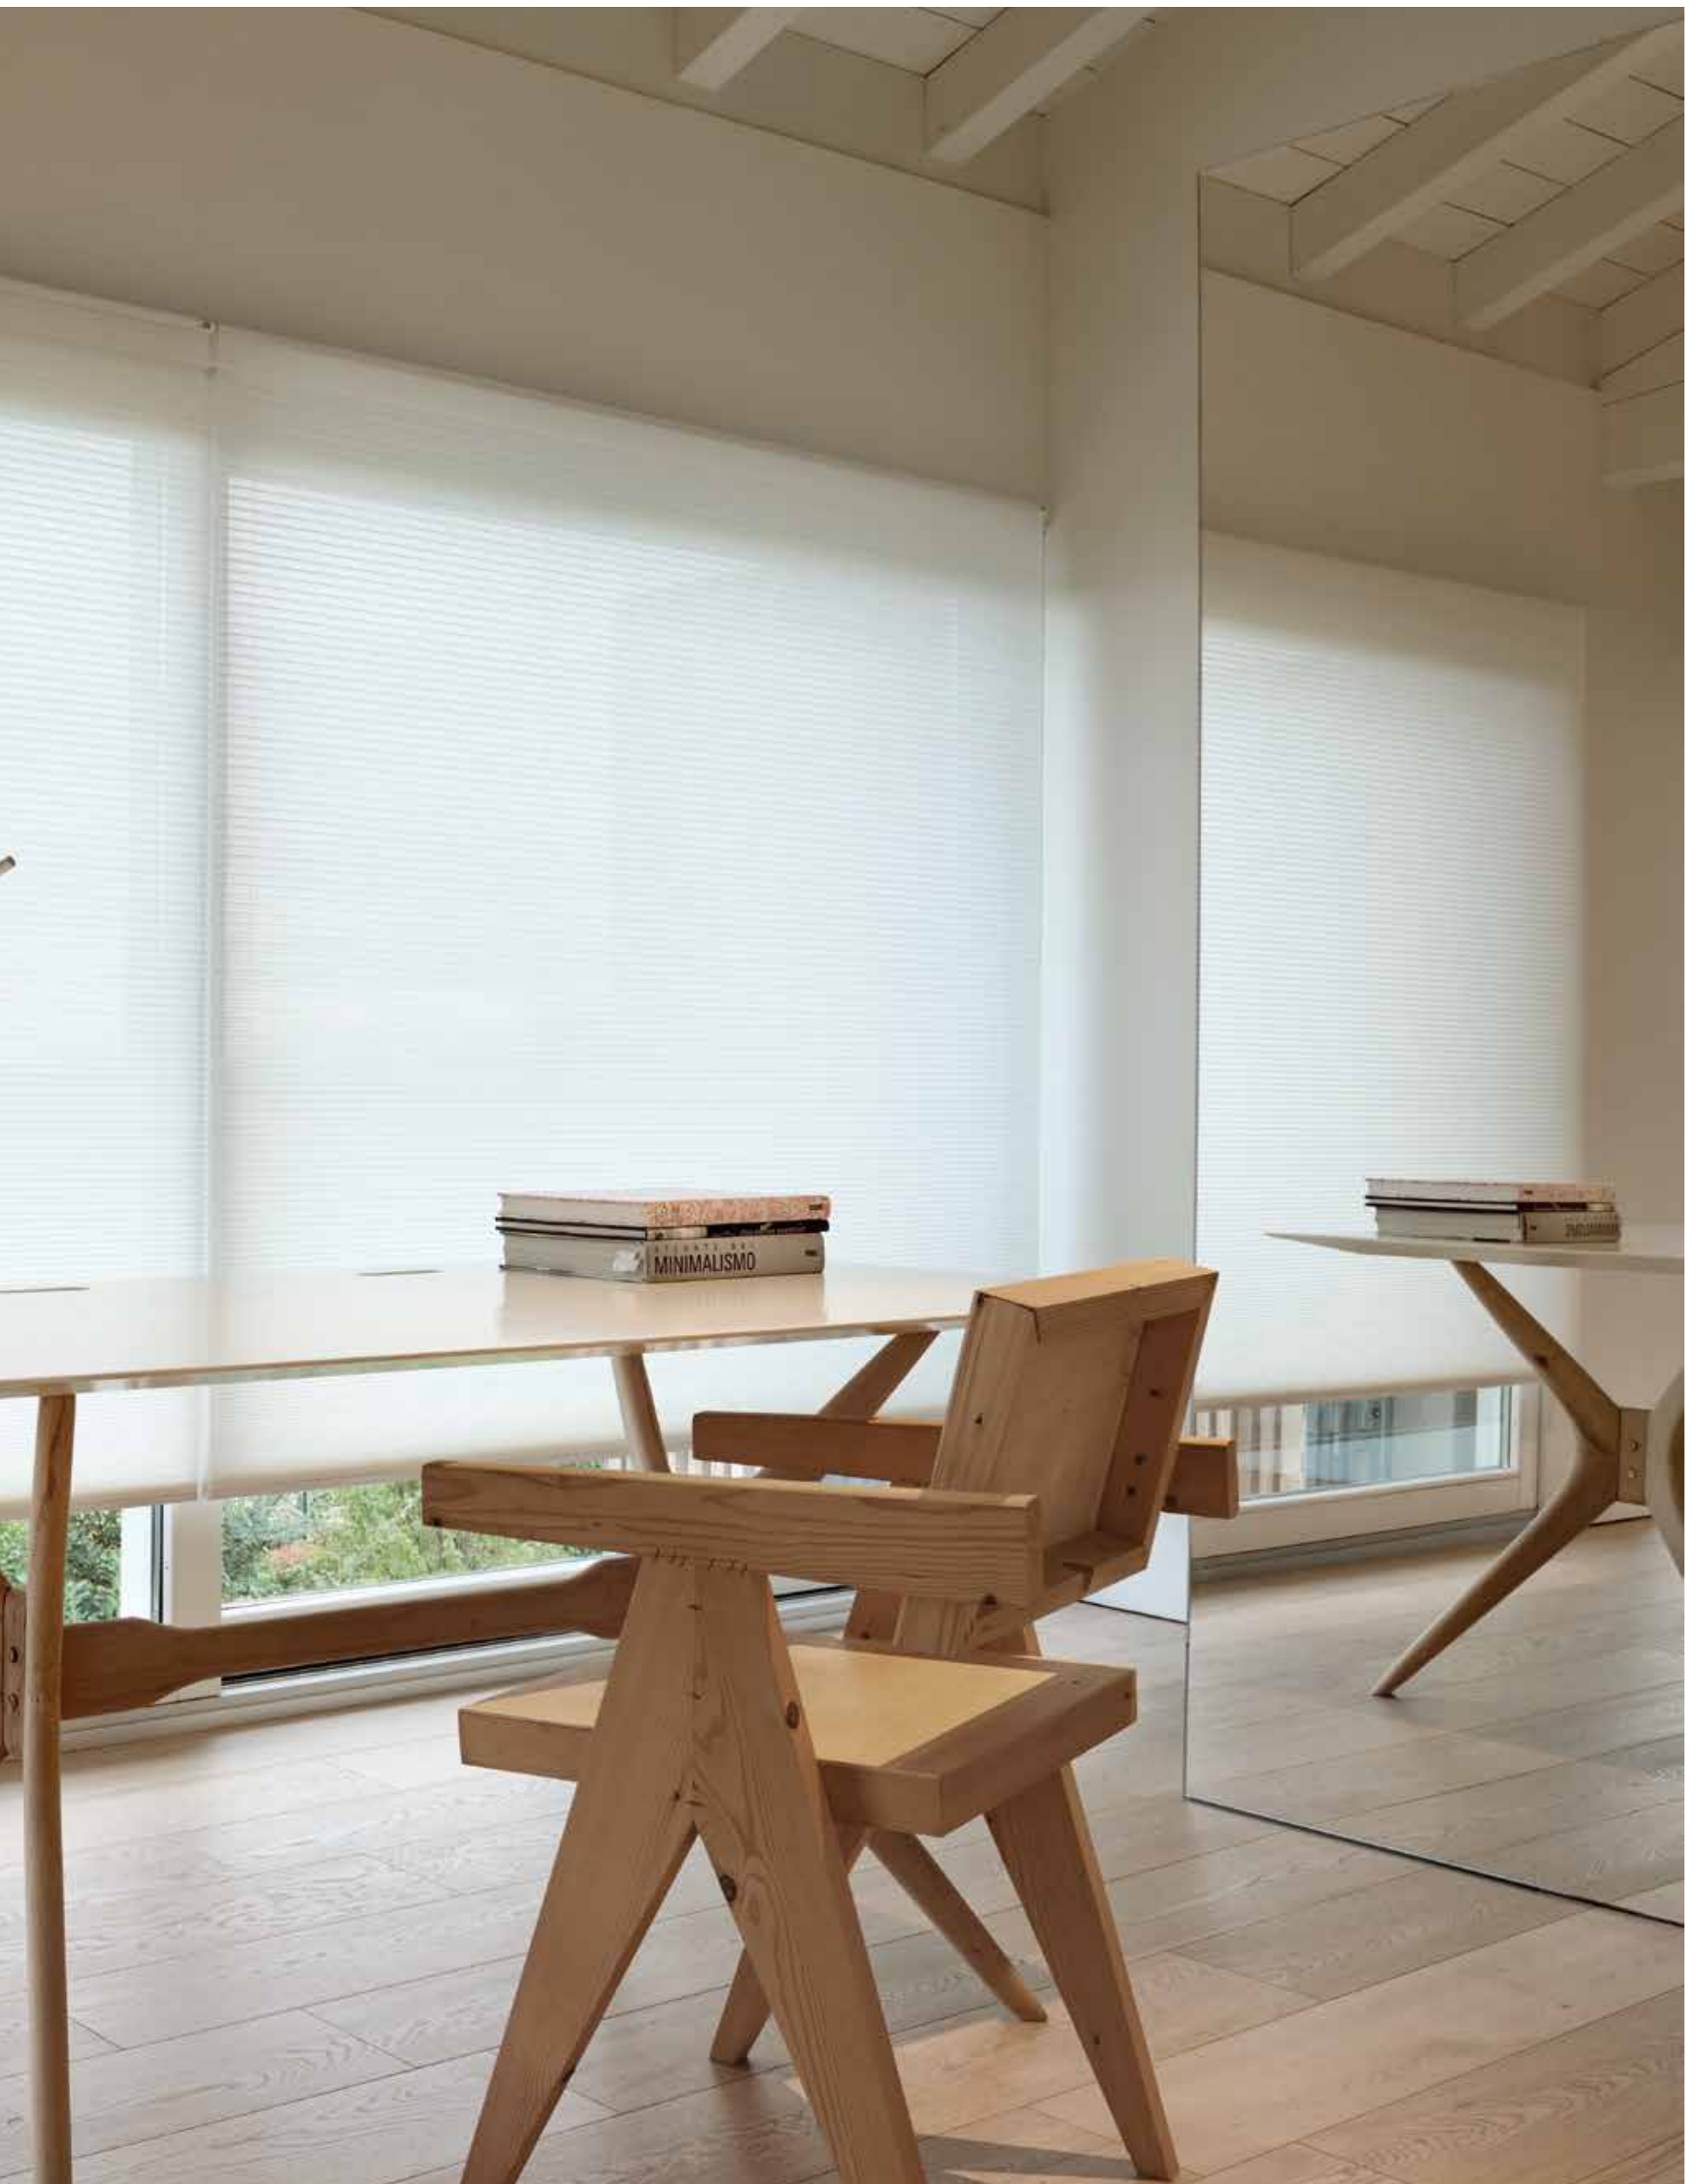

CHILD SAFE BY DESIGN

Enjoy peace of mind with the child safe roller blind systems in the Coulisse range. Absolute Roller 2.0 offers several operating options that are child safe by design. Options include both manual and motorized operation.

SAVE ENERGY

Honeycomb fabrics are the perfect choice for office spaces. Thanks to their cellular structure, they absorb sound and keep out the heat in summer and the cold in winter. Apart from varieties with stylish prints, the collection includes a wide variety of different plain fabrics with a white backing or backing in the same color.

STYLISH COUPLE
Absolute Roller 2.0

With endcaps, bottom bar and operating chain in powerful stainless steel, the blind gets a stylish designer look with a contemporary feel.

PERFECTLY ALIGNED

With Coulisse MOTION, you can easily set favorite positions. Thanks to the smart programming function, the blinds can be aligned at the exact same position. Enjoy motorized operation and perfectly aligned blinds.
